## WORK EXPERIENCE(IETE)

### WEB DEVELOPER

- Full Stack Website for the Society
- Worked on Various Projects

### DESIGNER

## PROJECTS

**Paisa Pocket:** We developed Paisa Pocket application, which helps users to invest automatically based on user defined risk factors and market trends, eliminating the need for deep market understanding. Paisa Pocket is a step towards financial inclusion.

**Decentralized Cab Booking:** We developed a solution to eliminate giants like Ola and Uber charging high commissions from drivers.

**Anonymous Freelancing :** We have devised a solution to eradicate discrimination in freelancing by implementing anonymity through the use of blockchain technology.

**HealthChef :** We have created a comprehensive platform that caters to all your health needs, including online doctor appointments, nutritious recipes, and exercise regimens.

## AWARDS|CERTIFICATIONS
